

How-To: Updating Chrome

1. On your computer, open Chrome.
2. At the top right, click More .
3. Go to the "Help" menu item and then click on "About Google Chrome".
4. At the time of creating this document 08/11/20, the current version is:

Google Chrome is up to date
Version 84.0.4147.125 (Official Build) (64-bit)

If this is your case then your Chrome is good to go.

5. If your screen looks like something like the following, you'll want to click on the text in blue, "Chrome OS Settings" and it will update to the latest version.
